NORWAY MUNICIPAL COURT

Wm. F. Jones, Judge

Sam Isaacson was acquitted of an assault charge brought by Harmon N. Klain, Monday afternoon.

The court proceedings were the outcome of a get-together on Main street Saturday evening. It is said business matters happening back along were the contributing cause for this affair and Mr. and Mrs. Klain decided to settle the score on the easiest possible way.

According to the testimony, Sam endeavored to avoid a meeting and drive away trouble, but Mr. and Mrs. Klain forced matters with pugilistic methods.

Harmon, it is charged, started some Jess Willard stuff on Sam which was easily blocked. Mrs. Klain also assisted her husband but did nothing worse than land a smart slap on Sam's face according to the victim's story.

Mr. Klain considered Sam had been unkindly rough in the fracas and the warrant was sworn out early Monday morning.

Isaacson was represented by A. J. Stearns and his associate, W. W. Gallagher.

Harmon appeared without legal counsel and conducted his case alone.

The hearing attracted a large crowd. Several witnesses were examined and the testimony proved exceedingly interesting.

Eldin Goff alias McKane of Norway was arraigned Wednesday morning charged with grand larceny of a suit of clothes valued at \$40, a watch \$20, \$50, in money and a pair of shoes.

Edward W. Andrews, a returned soldier was the complainant, and these articles were his property and removed from a local boarding house by the respondent, it is charged.

Goff pleaded guilty and was bound over to the court of \$500. Not being able to find security he was committed to the county jail.

Mrs. Emma Marston of South Paris pleaded guilty to adultery. She was bound over in the sum of \$500, and furnished satisfactory securities for her release.

Her husband, Leo Marston took her home where several children were waiting her arrival.

The two cases are the culmination of a railroad trip which commenced at South Paris about a week ago and ended several days later in a lodging house at Everett, Mass., where they were found being together it is alleged.

The couple were arraigned in the Malden court and held in the Cambridge jail for Sheriff, Ernest Shaw, who returned Tuesday night with the pair. The Malden case was placed on file.

It is alleged that Goff used the lout for this trip which ended so quickly. Credit is due to local officers for their apprehension as the pair played a dodging game from the beginning and were trailed to several small towns before they sought city life.

Jonathan Millett

Jonathan S. Millett, aged 37 was thrown from a carriage late Friday afternoon, June 13 and sustained injuries which caused his death in a short time.

The accident happened when the horse became frightened at a bicycle rider, and making the turn into the yard at Millettsville, the victim pitched from the carriage. He struck head first on the ground and was unconscious to the end.

The deceased was the son of the late John Henry and Sarah Rice Millett and born at the Millett farm, Aug. 15, 1881.

where he always resided and carried on the large farm with his brother, Harry. He never married and lived as a member of his brother's family. Mr. Millett was a member of Norway Grange and a prominent worker in that order.

BASE BALL

Norway High outfit were forced to grounds, Saturday afternoon, when the making room bunch from the Carroll, town team" got after the students in the game and they really look ugly even though they were fine in their eyes special during the last few innings.

Desolate pitched a calm, steady game and the support was good. Noble was in the upper seat in the batting row, having a single and a double to his credit, amounting to scattered bingles.

Norway High opened in a firm manner and copped the first run in the inning when Purington secured the ball.

Single, was given an easy trip second when Hunt hooked Rice with a bean ball, stole third and came across on Pete Boulter's error. Their last score was earned by Noble in the eighth on his Texas leaguer into center; two stolen bases and a mix-up by Banks when Rice slammed a hot one toward second base.

The town team hauled out their crop of runs in a prize package. There were three tied together in the fourth inning but never again. Something stretched in the eighth inning with two singles in succession and only one man gone, but Desoite wound up the holiday by the strike out route and slammed the hatches against more scores.

As the game was equal to the best times, the game was equal to the best times, the game was equal to the best times.

played here thus far this season. The hits were evenly divided and put outs unassisted were featured specially by the High School.

Garcelon's Buildings Burned

During the heavy shower June 5, A. B. Garcelon's residence was struck by lightning and burned with all its contents. The family had not returned from Lovell where they have been staying the past winter and spring. It is a great loss as it was a beautiful place and was practically new, having been built only seven years. The fire was not discovered in season to save anything of value.

There was a large gathering of grangers at Kezar Lake Grange Hall June 5. The Oxford and Cumberland Pomona and the Oxford Pomona met there for their regular meeting. There was a large class instructed in the fifth degree. At noon a fine dinner was served in the pretty dining room and everyone did justice to the delicious food provided. An extra good program was being given when the heavy shower that had been threatening for some time came. The lightning, thunder and hail was terrific. It lasted more than an hour. The lightning struck in several places, doing considerable damage to buildings and the torrents of rain washed the roads badly. There has not been so hard a shower in this locality for many years.

E. O. McAllister of Auburn and wife spent the week end at Perley McKee's. Louise Crimback was a recent guest at Perley McKee's over night and attended the Pomona meeting, recently.

Mr. and Mrs. C. A. Garcelon and Chas. Jr., wife and Dorothy Bishop were at their place here Sunday, and Monday, the 9th, and went to Portland, but expect to return later.

Music Will Help You

To Harmonize
Yourself with your condition
Your work with your pleasure
Your Family with your home.

MUSIC will help you to live your life so as to get the most out of it, to do your work so you can put the most into it, and it will help every member of your family as it helps you.

We have just passed through strenuous times. Music carried us over the rough places, kept our hearts up and our nerves steady. The whole nation worked with a will, worked together and accomplished its purpose to the rhythm of music. And the rhythm of music will never pass out of our lives. It will be waiting for us at the end of a hard day's task, it will bring us rest when rest is what we need. It will add to our gaiety when we want the brightness to sparkle. It will fill the empty chair when we are lonesome. It will bring us quiet contentment, rich enjoyment, solid comfort according to our desire and the need of the moment.

Yes, it will help every one of us over stony paths and along the broad highway. And it will help each member of our family, for it develops that community of interest, that bond of unity so valuable to a Family or to a Nation.

See that Music brings its blessings to You and Your Family.

Seventy-Fourth Birthday
Wm. H. Gordon was honored very highly on Wednesday, May 28th, when he was the recipient of a post card shower consisting of 134 cards in honor of his 74th birthday. This was a great surprise to Mr. Gordon and more so when his two daughters, Mrs. Lottie Morrison and Mrs. Alice Briggs drove up to the door to wish him a happy birthday and to spend the evening with him. Other guests besides his daughters were Lester Briggs and daughter, Howard Morrison, George A. Smart and Neal Jones.

Mr. Gordon was presented with several floral tributes among which were a large bouquet of pinks from his daughters and grandchildren, a beautiful hydrangea from Mr. and Mrs. Frank Harmon. Mrs. Orson Andrews remembered Mr. Gordon with a lovely box of chocolates. Mr. Gordon was more lucky than most of us, as he was the owner of two birthday cakes from his daughters. A nice lunch of ice cream, several kinds of cake and salted nuts were served.

At a late hour all departed for their homes after spending a very social evening and wishing Mr. Gordon many happy returns of the day. Mr. Gordon appreciates all the kindly remembrances.

Memorial exercises were held at the Black Mts. schoolhouse under the direction of Mrs. Wyman Tower. The children spoke some nice pieces and some nice music by the Gordon brothers and Mrs. Tower. Calvin Gordon was right on the spot to play his tenor drum. Mrs. Tower played the bass drum and Mr. Gordon the violin. After the exercises the children marched to the cemetery to decorate the graves. A few selections were sung by the children at the cemetery. Mrs. Tower's friends are very sorry she had to give the school up on account of ill health, but hope she will soon be able to teach again as she is a very competent teacher.

Hazel Keniston will finish teaching the spring term of school at Black Mt. George A. Smart and Calvin Briggs called on New York friends at Sebago Lake one day, recently.

ALBANY
A large crowd gathered at Hunt's Corner May 28th to visit the graves of the soldiers who died in the Forenoon. The Relief Corps and one sailor and one soldier held ceremonies in forenoon which were interesting. The whole crowd sat down to a bountiful dinner furnished by the townspeople free to all. Between two and three hundred ate and had a large quantity of food left. The afternoon exercises consisted of recitations by the school children of the town; Mrs. A. A. Bruce read a very appropriate selection. Remarks were made by Rev. Eliopoulos of North Waterford and A. G. Bean of Albany and his grandson, Herbert B. Bean of Lewiston. Mrs. Herbert B. Bean and daughter Jennie sang two nice selections. Mr. Little of Bethel gave an excellent address.

CARE OF THE TEETH.

The importance of healthy teeth cannot
 be too fully considered, not only
 from a beauty standpoint, but also from
 the hygienic view as well. Strong, firm mo-
 lars prove one of the most important aids
 to good health, clear complexion, and
 last, but not least, one of the most impor-
 tant visible points of facial beauty.

No matter how regular and symmetri-
 cal the features are, they will lose their
 charm and fascination, if, when the
 mouth is opened, the teeth are unsightly
 and irregular.

There is little or no excuse for such a
 condition, especially when the science of
 dentistry has become so complete in its
 perfection. To be sure, the dentist's
 chair is no pleasant place, but after all
 it is only for a time.

Regular care and a visit to one's den-
 tist at least twice a year will keep the
 teeth from decay or becoming tartar cov-
 ered.

The cause of many ills can be directly
 traced to decayed teeth. If one stopped
 to consider the danger that there is in
 allowing them to decay so that a deep cav-
 ity is evident, through which germs and
 microbes may pass into the system, more
 care would be taken to have such condi-
 tions checked.

Aside from the fact that such a condi-
 tion is sure to result in bad breath, invari-
 ably poor digestion, because with poor
 teeth one cannot chew properly, and as a
 result a poor complexion, there is the
 danger of poisoning acting as a
 result of the exposure to any foreign
 matter that may lodge in such cavities.

Recently a well known specialist proved
 that many of the cases of chronic rheu-
 matism are caused by a germ getting into
 the system by way of decayed teeth.
 This may seem far fetched, and almost
 impossible, yet it has been officially recog-
 nized. One can therefore readily realize the
 grave importance of taking particular
 and regular care of these agents.

Just what is considered care may not be
 definitely known to every one.
 Surely there are few who do not recog-
 nize the fact that it is necessary in order
 to maintain one's place in this hurrying
 universe, to take time to attend to such
 little niceties, as having one's nails well
 groomed and hair healthy with a bright,
 lively sheen and one's wearing apparel in a
 neat, orderly condition, but the trouble
 is that most of us in the rush and tumble
 of everyday existence do not have the
 proper amount of time to follow up our
 natural inclinations in these matters and
 do them properly.

This is largely the reason that often-
 times the teeth are given a "cat wash." Night
 and morning will come and go and there
 are many who will just brush over the
 gums and teeth with a tooth brush and
 powder and not take the time to clean the
 teeth properly at all. The tiny particles
 of food are not dislodged and form tartar
 and often cause decay.

If one has been negligent enough to al-
 low tartar to form there is only one thing
 to be done, and that is to have a dentist
 remove it. There is danger of breaking
 the enamel if one tries to do it oneself.

Many people, either from ignorance or
 carelessness, do not know how to manipu-
 late the tooth brush when cleaning the
 teeth.

It is difficult to understand how any
 one thinks that the teeth can be cleaned
 by rubbing the brush across them alone.
 How can food particles that are in the
 cracks and spaces between the teeth be
 dislodged by brushing them crossways in
 front of an open door?

The brush should be rubbed down from
 the upper gums and up from the lower
 gums. In this way they will get in be-
 tween the teeth.

One ought to be most careful about
 selection of the tooth brush, also the
 care taken of it between the times that
 it is used.

It should not be kept in use longer than
 three weeks. It is a good plan to soak it
 in boiling water with a pinch of borax.
 This will freshen it and clean the bristles.
 To have a very small mirror, one just
 large enough to place in the mouth, is a
 rather good idea, for in this way one can
 examine the teeth every now and then and
 help to locate any suspicion of a cavity,
 so that it may be attended to at once.

One ought to make a habit of rinsing
 the mouth with a good mouth wash one
 or more times a day. This will keep the
 gums in a healthy condition and sweeten
 the breath.

The eyes are of such prime importance
 that it is strange more attention is not
 given to them.
 A bath of tepid water given through
 the eyelids will tend to freshen and
 strengthen them wonderfully after a hard
 day's work.

If the eyes become inflamed there are
 several soothing remedies which may be
 easily made and will help reduce the in-
 flammation.
 A tonic made from five grains each of
 powdered alum and sulphate of zinc, with
 a gill of boiled and cooled water, is ex-
 cellent.

WOMAN'S SPHERE

It is not our intention in this article to
 enter into a discussion of the great ques-
 tion now agitating this country, the ap-
 parent outcome of which will place po-
 litical, at last, on a perfect equality, politi-
 cally, with man. Each side of this dis-
 cussion has its advocates, and each, no
 doubt, are honest in their views.

We do wish briefly to call attention to
 some very erroneous views as to woman's
 proper "sphere."

We regret to note a tendency on the
 part of some of the more prominent ad-
 vocates of female emancipation, to be-
 lieve the idea that woman's natural place
 is in the home. This can have no good
 effect and is liable to work great harm.

Admitting that there are many women
 who are capable of greater things than
 mere home-keeping (if there can be any
 mere home-keeping) at the same time we
 must recognize the fact that these women
 are greatly in the minority. While we
 may count this class by the hundreds, there
 is another class that must be counted by
 thousands and millions whose tastes, in-
 clinations and natures fit them to be
 house-keepers, and only home-keepers.

The woman who really would throw off the
 cares of the home for public life are very
 few as compared to the great host of
 those who are not only willing to do
 some of those duties, but who really prefer
 them to any other sphere in life.

The merciful wisdom of Providence
 has decreed that woman must bear chil-
 dren in any place but home is one of
 the things that have never yet found favor with
 people. And the thought of a home in
 charge of any but the mother is a thought
 to which we have not yet become
 accustomed. There are thousands who
 highest aspiration is for a home of their
 own, and we protest against any policy
 that would tend to sow discord in their
 lives and cause them to yearn for a ca-
 reer for which they are totally unfit.
